

An experienced logistic partner

For more than 40 years, we have been offering a multitude of logistic solutions from transport to all handling operations to a safe storage of your material near the port of Antwerp.

We highlight our strong experience in handling and storage of plastics/EPS, but also general cargo.

Your business - our concern

You can expect a reliable logistics partner with an excellent customer service that treats your business with the utmost care.

Advanced WMS-software enables us to monitor and report on your stock.

Together with you, we choose the most efficient storage location according to your business and transport requirements.

Logistic solutions

We offer you tailor made solutions for small and larger business:

- Loading and unloading of your cargo
- (Re)packaging
- Bulking/Silo loads
- Orderpicking
- Temporarily or longer period storage
- Bonded warehouse

What else?

We can offer you a varied range of transporting solutions.

- Container transport by barge from the ports of Antwerp or Rotterdam to our warehouses at Grobbendonk and Herentals
- General trucking solutions throughout Europe
- Silo transport

Top strategic locations

You prefer transport by road, by water, or both? Both our warehouses are within close reach to suit your means of transport.

Herentals (10.000m²)

An excellent distribution point for all your material going into the Netherlands, Germany, Luxemburg and beyond. The highway E313 (Antwerp-Liège) is located in less than 5 minutes from our warehouse.

This location is most suited to supply by barge.

Lier (6000m²)

Located central between the highways E313 (Antwerp-Liège) and E19 (Antwerp-Brussels).
